

The Bank of America entanglement with Planned Parenthood that has led to #ProtestBOA

Following a Pro-Life Waco campaign of phone calls to national Bank of America Charitable Giving Department (800-432-1000), I received this communication from Bank of America indicating their corporate policy would maintain Planned Parenthood donations in spite of the national scandal and potential felonies revealed about Planned Parenthood of severing and selling baby organs follow—or during--abortions.

Thank you for your inquiry regarding Bank of America's relationship with Planned Parenthood.

The Bank of America Charitable Foundation does not make any direct grants to Planned Parenthood. As you may know, the Bank of America Charitable Foundation has a Matching Gifts program which matches our employees' charitable contributions to government recognized 501(c)(3) organizations. It is the Foundation's long-standing policy to support our employees' involvement in their communities across the country through these matching contributions, which are awarded annually to a diverse array of nearly 30,000 nonprofit organizations.

We respect your opinion and hope you understand our commitment to our employees and the communities where we do business. Thank you for taking the time to share your views with us.
