

Drawings from It's Perfectly Normal by Robie H. Harris

According to promotional flyers, Planned Parenthood Waco gave this 90-page sex manual to children attending **Nobody's Fool** in 2003 and 2004. Because content was judged to be pornographic, **It's Perfectly Normal** was rejected for the libraries of the prison system of the state of Washington. Cover-up spots have been added below so that Pro-Life Waco cannot be accused of pornography distribution.

These provocative drawings are found on pages 14, 23, 39, 56.
The book contains 91 other drawings of full or partial human nudity.
