Planned Parenthood  
of Central Texas  
65 YEARS IN WACO

## HEALTH

### *Heart of Texas Therapeutic Riding Center, Inc.*

*West, Texas*

*\$12,697.50*

Children with disabilities spend most of their time in therapy, learning how to use their arms or legs so they can be more independent. Therapy is what they do most every day. The Center tries to focus on using therapy to increase learning. The use of horses, swimming, and massages to stimulate muscles and circulation are used to stimulate the brain. The grant covered the expenses for a special cover for the swimming pool, chair lift for the pool, headrest, and chair strap, and other miscellaneous equipment.

### *Planned Parenthood of Central Texas*

*Waco, Texas*

*\$192,200*

Health services for low-income women is the focus of this agency that welcomes everyone regardless of race, age, disability, sexual orientation, or income. The Foundation grant hired a Patient Services Director to manage four existing clinics, the call center, new sites during expansion, and to purchase enhanced technology to support this growth.
