

“The Mind Polluters”

is a feature length investigative documentary film that follows the efforts of grass roots volunteers, legislators and Christian academics to expose and stop the efforts of corrupt organizations and groups to infiltrate the nation’s school systems with pornographic and pedo-sadist (pedophilia) materials. The film not only shows the brutal battle being waged right now to force both public and private school systems to indoctrinate children as young as pre-school age with materials so heinous that they are illegal everywhere else except in the classroom, it also explores the history

Pro-Life Waco presents a sneak preview of **The Mind Polluters** at January 9, Second Sunday Gathering at St. Mary Church Hall, 1424 Columbus Ave. **Monica Cline**, a key player in the video, will be with us to answer questions. A buffet meal is served during the noon hour. The program hour is 1-2 p.m. No children for this event. We do not want to expose children to the evil designs of those who would pollute their minds, hearts, and souls.

The battle lines have been drawn. Will the Church stand for Truth, or will we falter?
